

Qualified UHV Bakeable Straight Through Valves

All stainless steel construction

Hositrad's Sealed bakeable straight through valves are available in the following sizes:

1,50" SMV-150

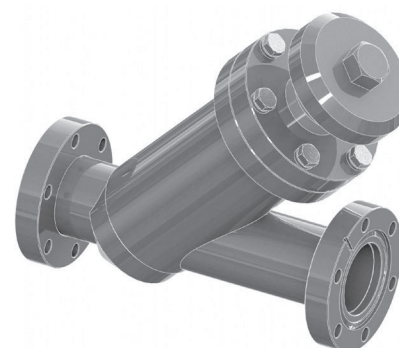

2,50" SMV-250

All metal valves feature OF-Cu copper bonnet and seat seals that are easily replaceable. No need to use liquid nitrogen or risk damaging valve during maintenance.

The initial low torque required will provide long seal life.
